ml	10floz
- 250 -	- 8 -
- 200 -	- 6 -
- 150 -	- 4 -
- 100 -	- 2 -

Read the instructions, keep them safe, pass them on if you pass the appliance on. Remove all packaging before use.

## **IMPORTANT SAFEGUARDS**

Follow basic safety precautions, including:

- 1 This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been supervised/instructed and understand the hazards involved.
- Children shall not play with the appliance.
- Cleaning and user maintenance shall not be done by children unless they are older than 8 and supervised.
- Keep the appliance and cable out of reach of children under 8.
- 2 If you overfill, the kettle may spit boiling water.
- 3 Use the kettle only with the stand supplied (and vice versa).
- 4 If the cable is damaged, return the appliance, to avoid hazard.

 The surfaces of the appliance will get hot.

-  Don't put the kettle, stand, cable, or plug in any liquid; don't use the kettle in a bathroom, near water, or outdoors.
- 5 Don't use the kettle for any purpose other than heating water.
- 6 Don't operate the appliance if it's damaged or malfunctions.

### **household use only**

#### **THE LID**

- 1 Remove the lid before using the kettle, replace it when finished, to keep dust, etc. out of the hopper.

#### **FILLING – 1 CUP**

- 2 Fill the hopper with the amount of water you need (up to 250ml/10floz).
- 3 Press the button to open the hopper and pass the water into the kettle.
- 4 Jump to point 10.

#### **FILLING – MORE THAN 1 CUP**

- 5 Hold the kettle under the tap
- 6 Press the button to open the hopper.
- 7 Fill with at least 1 cup of water, but not above max.
- ★ Don't worry – the open hopper will easily cope with the flow of water.
- 8 Turn the tap off.
- 9 Release the button, to close the bottom of the hopper.

#### **| SWITCHING ON**

- 10 Put the stand on a stable, level surface.
- 11 Plug the stand into the wall socket.
- 12 Put the kettle on the stand.
- 13 Move the switch to |. The light will glow, the kettle will heat up.

## ○ SWITCHING OFF

- 14 When the water boils the kettle will switch off.
- 15 To switch off manually, move the switch to ○.
- 16 Lifting the kettle off the stand will also switch the kettle off.

## 👁 GENERAL

- 17 When you lift the kettle, you may see moisture on the stand. Don't worry – it's the steam used to switch off automatically, which then condenses and escapes via vents under the kettle.
- 18 You may see some discolouration on the floor of the kettle. Again, don't worry – it's due to the bonding of the element to the kettle floor.

## ⚠ USING WITH INSUFFICIENT WATER

- 19 This will shorten the life of the element. A boil-dry cut-out will switch the kettle off.
- 10 You must then remove the kettle from its stand to reset the cut-out.
- 1` Sit the kettle on the work surface till it's cold.

## 👁 CARE AND MAINTENANCE

- 22 Unplug the stand from the wall socket, and let the kettle cool down fully before cleaning.
- 23 Wipe the kettle, inside and out, with a damp cloth
- 24 Squeeze the catches inwards, to unlock the hopper, and lift it out.
- 25 Grip the tab on top of the filter, press down and back, to release it, and lift it out.
- 26 Rinse the filter under a running tap while brushing with a soft brush.
- 27 Fit the bottom of the filter into the slot at the bottom of the spout
- 28 Press the filter towards the spout, to lock it into the top of the spout.
- 29 Squeeze the catches inwards, lower the hopper into the kettle, then release the catches.
- 30 Replace the lid.

## **Descale regularly, at least monthly.**

- 31 Descale the appliance at least monthly with a proprietary descaler.
- 32 Follow the instructions on the package of descaler.
- ★ Products returned under guarantee with faults due to scale will incur a repair charge.

 Russell Hobbs descaler, formulated specially for our products, is available from Customer Service (back page).

## ENVIRONMENTAL PROTECTION

To avoid environmental and health problems due to hazardous substances in electrical and electronic goods, appliances marked with this symbol mustn't be disposed of with unsorted municipal waste, but recovered, reused, or recycled.

## SERVICE

If you ring Customer Service, please have the **Model No.** to hand, as we won't be able to help you without it. It's on the rating plate (usually underneath the product).

The product isn't user-serviceable. If it's not working, read the instructions, check the plug fuse and main fuse/circuit breaker. If it's still not working, consult your retailer.

If that doesn't solve the problem – ring Customer Service – they may be able to offer technical advice.

If they advise you to return the product to us, pack it carefully, include a note with your name, address, day phone number, and what's wrong. If under guarantee, say where and when purchased, and include proof of purchase (till receipt). Send it to:

Customer Service

Spectrum Brands (UK) Ltd
